

Expansion into international markets is often complex; from creating the right structure and dealing with the differences surrounding multiple jurisdictions, through to group financial reporting functions. Fitzgerald and Law support and manage your operations, freeing you up to concentrate on core business matters.

## Financial Outsourcing

*"Our flexible approach to managing your international operations makes entry into new markets straightforward and cost effective."*

**Martin Ranson**

F&L's financial outsourcing support service acts as an extension of your business, providing the resources and expertise to enable you to avoid staffing issues, free up managerial time and concentrate on your core areas of activity.

We pride ourselves on being accessible and in mitigating international time differences by assigning a dedicated account manager as a main point of contact, providing you with transparency and control.

Using various accountancy software systems, F&L's experienced teams will seamlessly deal with your payroll management, bookkeeping requirements, purchase/expense processing, bank payments, cashflow management, VAT/Sales tax filings and returns, sales invoice generation and credit control collection procedures.

We adopt a flexible, client-driven approach to your monthly reporting. Together with our extensive network of international service providers we deliver currency, departmental or other tailored management reports on a timely basis and by a variety of bespoke delivery methods.
