

Establishing an international presence is a tough challenge for today's businesses. Financial and legal obligations vary immensely from one country to another and setting up in a new location can be a long, confusing and frustrating process. Fitzgerald and Law provide incoming businesses with a single, integrated entry strategy to international markets.

Global Expansion

"We provide expert support to make your business work effectively in international markets."

Gabriel Parrish

Based in Central London, our multi-disciplinary group of professionals work together across every relevant area to deliver integrated solutions to the challenges of expanding your business internationally.

F&L brings a high quality, personalised approach to every facet of managing your business overseas; from corporate tax planning, international payrolls and payroll taxes, monthly accounting preparation and reporting, local statutory financial statement filings, audit requirements, transfer pricing and FX control, to compliance with local income tax and VAT/Sales tax filings and fulfilment of social security obligations.

We also handle your IT, employee benefits, legal and HR requirements so that all aspects of your operations are taken care of by one, single provider.

Each service can stand alone or contribute to an integrated portfolio of operational support that is both flexible and scalable.

We'll work with you every step of the way to offer you creative, insightful solutions to your business requirements – on time and on budget and with the expertise and attention to detail that has established our reputation as the one-stop solution to setting up business overseas.
