

Making your international business as tax efficient as possible is vital in expanding successfully overseas – and the complexities and complications of foreign tax systems can be confusing. Fitzgerald and Law help you optimise your international tax structure and look after your ongoing direct and indirect tax compliance.

Professional advisory services

Tax Advisory

“Tax issues have a real impact on where you choose to locate your business internationally. We are able to mitigate your tax liabilities whilst minimising risk.”

Gabriel Parrish

From the moment you decide to expand globally, F&L will help you optimise your tax position in your chosen countries.

We will carry out the necessary initial registrations for corporate tax, VAT/Sales and payroll taxes wherever you establish your operations.

Our expert tax advisory team, working together with local service providers, will advise you on tax compliance in your chosen territory, file your returns and keep you informed of changes to tax legislation.

Support ranges from tax planning to corporate tax compliance, VAT/Sales and customs/import duties. Our extensively experienced team can also provide assistance with special tax issues from efficient transfer pricing to mergers and acquisitions, stock and share options and payroll tax calculations.

We will identify any potential tax risks to ensure that you stay compliant and tax efficient across your business, both locally and globally.
